Introductory

We have the pleasure of presenting to our patrons this, our first directory of Goshen and suburbs, and we trust upon examination it will prove satisfactory.

The publishing of a directory is always a task of great magnitude, peculiarly susceptible to errors, but in compiling this work we have employed experienced men and spared neither time, care nor expense and have conscientiously endeavored to give the citizens of Goshen a directory that will be a credit to their city and ourselves.

We desire to extend our thanks to the patrons for the encouragement given us in this work, and assure them that we will, in our future publications, always strive to keep our work up to the highest standard. Another book will be issued two years from this date.

Yours truly,

THE PUBLISHERS.

May 21, 1906.

Population of Goshen

As taken by the Publishers of this Book.

Males	**6,027**
Females	**4,878**
Total	**10,905**

These figures are not from an estimate made by multiplying the names in the directory, but the result of a careful enumeration from house to house canvass.

DESCRIPTION OF RURAL ROUTES WILL BE FOUND IN BACK OF BOOK.
